

Wesfarmers Health: Innovation, Investment & Impact

EMILY AMOS
Managing Director
Wesfarmers Health

Wesfarmers Way

Wesfarmers' primary objective is to deliver a satisfactory return to shareholders.

We believe it is only possible to achieve this over the long term by:

Anticipating the needs of our customers and delivering competitive goods and services

Looking after our team members and providing a safe, fulfilling work environment

Engaging fairly with our suppliers, and sourcing ethically and sustainably

Supporting the communities in which we operate

Taking care of the environment

Acting with integrity and honesty in all of our dealings

Macro trends driving interest in health

**Ageing population,
increase in chronic disease**

**More health conscious, digitally
literate consumers**

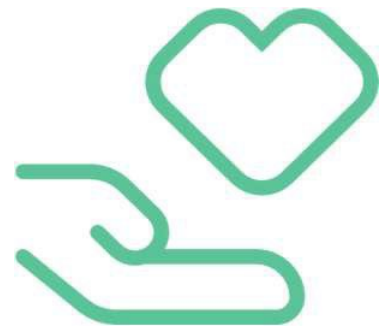

**Growing demand for
consumer-led health and beauty**

Wesfarmers Health mission

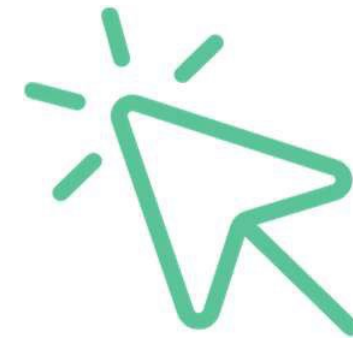

To make Australians' health, beauty and wellness experiences:

Simpler

**More
affordable**

**Easier to
access**

Reflections through the journey

Are we meeting people where they are or asking them to meet us?

Have we got the right governance in place to scale safely?

What is our data telling us and how can it support the system?

Thank You & Questions
